2.5.3.9 Unless otherwise specified by the Customer, if partial payment of a bill is made, then the Company shall first credit the partial payment to basic local exchange service and regulated toll service.

2.5.3.10 Not later than fifteen (15) days after the completion of an order for new service or a change in existing service that results in a billing change, the Company shall send to the Residential Customer a written itemized statement of the services ordered, including all associated charges.

SECTION 2 - REGULATIONS (continued)

2.5 Payment Arrangements (continued)

2.5.4 Advance Payments

The Company may require the prepayment of one (1) billing period's charges for basic local exchange service as a condition of service. If a Residential Customer's basic local exchange service is subject to usage-sensitive pricing, then the prepayment permitted by this rule shall not be more than the average of charges for similar services purchased in the Residential Customer's exchange during the most recent calendar year for which data is available. In addition, where special construction is involved, the advance payment may also include an amount equal to the estimated non-recurring charges for the special construction and recurring charges (if any) for a period to be set between the Company and the Customer. The advance payment will be credited to the Customer's initial bill. An advance payment may be required in addition to a deposit.

2.5.5 Deposits

2.5.5.1 The Company may require a Customer to make a deposit to be held as guarantee for the payment of charges, except as stated in Section 2.5.5.4 below. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills upon presentation. The maximum amount of any deposit shall not exceed the equivalent of the customer's estimated liability for two months usage, but not to exceed \$150.00 per access line.

2.5.5.2 A deposit may be required in addition to an advance payment.

2.5.5.3 When a service or facility is discontinued, the amount of a deposit, if any, will be applied to the Customer's account and any credit balance remaining will be refunded. Before the service or facility is discontinued, the Company may, at its option, return the deposit or credit it to the Customer's account.

2.5.5.4 No deposit will be charged for lifeline customers who voluntarily elect to receive toll blocking service.

The Company is not obligated to provide service to a household under any name if an outstanding bill exists at the address and the person responsible for that bill still resides at the address.
- 2.5.5.6 The Company will pay interest on deposits held longer than 90 days, to accrue from the date the deposit is made until it has been refunded, or until a reasonable effort has been made to effect a refund. - 2.5.7.2 Where, prior to cancellation by the customer, the Company incurs any expenses in installing the service or in preparing to install the service that it otherwise would not have incurred, a charge equal to the costs incurred by the company, less net salvage, shall apply, but in no case shall this charge exceed the sum of the charge for the minimum period of services ordered, including installation charges, and all charges other levy against the Company that would have been chargeable to the customer had service commenced.

SECTION 2 - REGULATIONS (continued)

2.5.8 Changes in Service Requested

If the customer makes or requests material changes in circuit engineering, equipment specifications, service parameters, premises locations, or otherwise materially modifies any provision of the application for service, the customer's installation fee shall be adjusted accordingly.

2.6 Allowances for Interruptions in Service

Interruptions in service that are not caused by the Customer, or during which the Company does not provide satisfactory replacement service, will be credited to the Customer as set forth in 2.6.1 for the part of the service that the interruption affects.

2.6.1 Credit for Interruptions

2.6.1.1 A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this tariff. An interruption period begins from the time the Customer's service is reported or is found to be out of service. An interruption period ends when the service, facility or circuit is operative. If the Customer reports a service, facility or circuit to be inoperative, but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

2.6.1.2 For calculating credit allowances, every month is considered to have thirty (30) days. A credit allowance for fixed recurring fees only is applied on a pro rata basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.

SECTION 2 - REGULATIONS (continued)

2.6 Allowances for Interruptions in Service (contd.)

2.6.1.3 Over 24 Hours:

- (1) If the duration of the outage is less than 5 days of a month, then the appropriate credit shall be the prorated amount of the Customer's monthly service rate.
- (2) If the duration of the outage is 5 days or longer, then the appropriate credit is the credit owed pursuant to 2.6.1.3(1) for the first 4 days of the outage plus an additional \$5.00 per day for the fifth day and each subsequent day of the outage, up to the amount of the customer's monthly service rate.
- (3) A credit adjustment will not be made if the outage is caused by the Customer or if a satisfactory replacement service is provided to the Customer. Should the Customer elect to use an alternative service provided by the Company during the period that a service is interrupted, the Customer must pay the tariffed rates and charged for the alternative service.

2.6.2 Limitations on Allowances

No credit allowance will be made for:

- (a) interruptions due to the negligence of, or noncompliance with the provisions of this tariff by, the Customer, Authorized User, Joint-User, or other common carrier providing service connected to the service of Company;
- (b) interruptions of service during any period in which the Company is not given full and free access by the Customer to its facilities and equipment for the purpose of investigating and correcting interruptions;
- (c) interruptions of service during a period in which the Customer continues to use the service on an impaired basis;
- (d) interruptions of service during any period when the Customer has released service to the Company for maintenance purposes or for implementation of a Customer order for a change in service arrangements; and
- (e) interruption of service during a time period in which the Company provides a satisfactory replacement service.

2.6.3 Cancellation For Service Interruption

Cancellation or termination of service by Business Customers due to service interruption is permitted only if any circuit experiences a single continuous outage of 8 hours or more or cumulative service credits equaling sixteen (16) hours in a continuous 12-month period. The right to cancel service under this provision applies only to the single circuit that has been subject to the outage or cumulative service credits.

2.7 Restoration of Service

2.7.1 Business Service Restoration

When a Business Customer's basic local exchange service has been shutoff in accordance with this tariff, service will be restored only upon the basis of the Business Customer completing a new application for service and qualifying for service as if it were a new Business Customer.

2.7.2 Residential Service Restoration

When a Residential Customer's basic local exchange service has been shutoff in accordance with this tariff, the Company will restore service promptly, but not later than one (1) working day after the Residential Customer's request, after the cause for the shutoff of service has been cured or credit arrangements satisfactory to the Company have been made. Before restoring service, the Company reserves the right to require one or more of the following:

- (1) Payment of the total amount due on all of the Customer's delinquent and shutoff accounts for basic local exchange service and regulated toll service owed to the Company;
- (2) An arrangement or settlement agreement requiring the payment of all amounts owed to the Company for basic local exchange service and regulated toll service;
- (3) Payment of the restoration charge and any applicable installation charges pursuant to this tariff;
- (4) Payment of an advance payment and/or security deposit pursuant to Section 2.5.4 and 2.5.5 of this tariff.

SECTION 2 - REGULATIONS (continued)

2.8 Joint Use Arrangements

Joint use arrangements will be permitted for all services provided under this tariff. From each joint use arrangement, one member will be designated as the Customer responsible for the manner in which the joint use of the service will be allocated. The Company will accept orders to start, rearrange, relocate, or discontinue service only from the designated Customer. Without affecting the Customer's ultimate responsibility for payment of all charges for the service, each joint user shall be responsible for the payment of the charges billed to it.

2.9 Cancellation of Service

If a customer cancels a Service Order or terminates services before the completion of the term for any reason whatsoever, other than a service interruption (as defined in Section 2.6.1 above), the customer agrees to pay the Company termination liability charges, as defined below. These charges shall become due as of the effective date of the cancellation or termination and shall be payable within the period set forth in Section 2.5.3.

The customer's termination liability for cancellation of service shall be equal to:

- (a) all unpaid non-recurring charges reasonably expended by the Company to establish service to the customer; plus
- (b) any disconnection, early cancellation or termination charges reasonably incurred and paid to third parties by the Company on behalf of the customer; plus
- (c) all recurring charges specified in the applicable service order for the balance of the then current term.
- (d) a reasonable allowance for costs avoided by the Company as a direct result of the Customer's cancellation.

SECTION 2 - REGULATIONS (continued)

2.10 Transfer and Assignments

Neither the Company nor the Customer may assign or transfer its rights or duties in connection with the services and facilities provided by the Company without the written consent of the other party, except that the Company may assign its rights and duties (a) to any subsidiary, parent company or affiliate of the Company; (b) pursuant to any sale or transfer of substantially all the assets of the Company; or (c) pursuant to any financing, merger or reorganization of the Company.

2.11 Notices and Communications

2.11.1 The Customer shall designate on the Service Order an address to which the Company shall mail or deliver all notices and other communications, except that Customer may also designate a separate address to which the Company's bills for service shall be mailed.

2.11.2 The Company shall designate on the Service Order an address to which the Customer shall mail or deliver all notices and other communications, except that Company may designate a separate address on each bill for service to which the Customer shall mail payment on that bill.

2.11.3 All notices or other communications required to be given pursuant to this tariff will be in writing. Notices and other communications of either party, and all bills mailed by the Company, shall be presumed to have been delivered to the other party on the third business day following deposit of the notice, communication or bill with the U.S. Mail or a private delivery service, prepaid and properly addressed, or when actually received or refused by the addressee, whichever occurs first.

2.11.4 The Company or the Customer shall advise the other party of any changes to the addresses designated for notices, other communications or billing, by following the procedures for giving notice set forth herein.

SECTION 2 - REGULATIONS (continued)

2.12 Formal and Informal Procedures

For Residential Customers, informal complaints will be handled by the Company's customer service department, which will use good faith efforts to informally resolve the dispute. If the Company and the Residential Customer are unable to informally resolve the dispute, the customer may file a formal complaint with the Michigan Public Service Commission.

2.12.1 Alternative Dispute Resolution

The following provisions apply if the formal complaint is for \$1,000 or less or if the customer elects to pursue an alternative means of dispute resolution.

- (A) The customer shall file a formal written complaint with the Michigan Public Service Commission.
- (B) If the customer and the Company cannot agree on an alternative means of dispute resolution within 20 days, they shall participate in a mediation proceeding conducted by administrative law judge or other person designated by the Commission.
- (C) If mediation is utilized, the mediator will provide a recommended settlement to the parties within 45 days after the written complaint was filed.
- (D) Within 7 days after the date of the recommended settlement, each party shall file with the Commission a written acceptance or rejection of the recommended settlement. A party's failure to file a timely acceptance or rejection shall be deemed to be a rejection of the recommended settlement.
- (E) If the parties accept the recommended settlement, then the recommendation will be adopted by the Commission as a final order.
- (F) If a party rejects the recommended settlement, then the complaint shall proceed to a contested case hearing before the Commission.

SECTION 2 - REGULATIONS (continued)

2.12.1 Alternative Dispute Resolution (contd.)

- (G) If the complaint involves a monetary dispute, the party who rejects the recommended settlement shall pay the opposing party's actual costs of proceeding to a contested case hearing, including attorney fees, unless the final order of the Commission is more favorable to the rejecting party than the recommended settlement under this section. A final order is considered more favorable if it differs by 10% or more from the recommended settlement in favor of the rejecting party. If both parties reject the recommended settlement, then each party shall be responsible for its own costs and attorney fees.

2.12.2 Payment of Amount Not in Dispute

- (A) If a customer files a formal complaint with the Commission, then the Company may require the Customer to pay an amount equal to the part of the bill that is not in dispute.
- (B) The amount that is not in dispute shall be mutually determined by the Company and the Customer.
- (C) If the Company and the Customer are unable to mutually determine the amount that is not in dispute, then the Company may require the Customer to pay up to 50% of the amount that is in dispute.
- (D) If the Customer fails to pay to the Company either the amount that is not in dispute or 50% of the amount that is in dispute, then the Company may shut off service consistent with this tariff.
- (E) If the dispute is ultimately resolved in favor of the Customer, in whole or in part, then any excess moneys paid by the Customer shall be refunded promptly, with simple interest paid at the rate paid on United States Savings Bonds, series EE.

SECTION 3 - SERVICE DESCRIPTIONS

3.1. General

The regulations set forth in this section govern the application of rates for services contained in other sections of this tariff.

3.1.1 Application of Business and Residential Rates

- A. The determination as to whether telephone service should be classified as Business or Residential is based on the character of the use to be made of the service. Service is classified as Business service where the use is primarily or substantially of a business, professional, institutional, or otherwise occupational nature. Where the business use, if any, is incidental and where the major use is of a personal or domestic nature at the person's dwelling, service is classified as Residential Service.
- B. Business rates apply at the following locations, among others:
- (1) In offices, stores and factories, and in quarters occupied by clubs, lodges, fraternal societies, schools, colleges, libraries, hospitals, and other business establishments.
 - (2) In residence locations where the place of residence is in the immediate proximity to a place of business and it is evident that the telephone in the residence is or will be used for business purposes, and in residence locations where an extension is located at a place where business rates would apply.
 - (3) In the residence of a practicing physician, dentist, veterinarian, surgeon, or other medical practitioner who has no service at business rates at another location.
 - (4) In any residence location where there is substantial business use of the service and the customer has no service at business rates.

SECTION 3 - SERVICE DESCRIPTIONS (contd.)

3.1. General (contd.)

C. Residence rates apply at the following locations, among others:

- (1) In private residences, in the residential portion of hotels, apartment houses, boarding houses, churches, or institutions when the use of the service is confined to the domestic use of the customer and listings of a business nature are not furnished.
- (2) In the residence of a practicing physician, dentist, veterinarian, surgeon, or other medical practitioner provided that such residence is not a part of an office building and provided the customer has service charged at business rates at another location.

3.2 Charges Based on Duration of Use

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- A. Calls are measured in durational increments identified for each service. All calls that are fractions of a measurement increment are rounded up to the next whole unit.
- B. Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s). Timing for operator service person-to-person calls start with completion of the connection to the person called or an acceptable substitute, or to the PBX station called.
- C. Timing terminates on all calls when the calling party hangs up or the Company's network receives an off-hook signal from the terminating carrier.
- D. Calls originating in one time period and terminating in another will be billed in proportion to the rates in effect during different segments of the call.
- E. All times refer to local time.

3.2.1 Applicable Rate Periods

Unless otherwise specified, applicable rate periods are indicated in the chart below:

* To, but not including.

3.3 Rates Based Upon Distance

Where charges for a service are specified based upon distance, the following rules apply:

- 3.3.1 Distance between two points is measured as airline distance between the Rate Centers of the originating and terminating telephone lines. The Rate Center is a set of geographic coordinates, as referenced in National Exchange Carrier Association, Inc. Tariff FCC No. 4, associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven digit telephone number). Where there is no telephone number associated with an access line on the Company's network (such as a dedicated 8XX or WATS access line), the Company will apply the Rate Center of the Customer's main billing telephone number.

SECTION 3 - SERVICE DESCRIPTIONS (contd.)

3.4 Calculation of Distance

Usage charges are based on the airline distance between the serving wire centers associated with the originating and terminating points of the call. The serving wire centers of a call are determined by area code and exchange numbers. All calls are billed from the End User's serving wire center to the terminating point serving wire center.

The distance between the originating point and that of the destination point is calculated by using the "V" and "H" coordinates as defined by NECA Tariff FCC No. 4, in the following manner:

- Step 1: Obtain the "V" and "H" coordinates for the originating point and the destination point.
- Step 2: Obtain the difference between the "V" coordinates of each of the Rate Centers. Obtain the difference between the "H" coordinates.
- Step 3: Square the differences obtained in Step 2.
- Step 4: Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5: Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6: Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating serving wire centers.

Formula: Square root of: $\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}$

3.5 Directory Listings

The Company shall provide for a single directory listing, termed the primary listing, in the telephone directory published by the dominant exchange service provider in the customer's exchange area of the Station number which is designated as the customer's main billing telephone number. A primary listing contains the name of the customer as well as the address and telephone number of the customer. This listing is provided at no additional charge. For Customers with multiple premises served by the Company, the Company will arrange for a listing of the main billing telephone number at each premise.
